
Illustration for T-shirt Transfer paper, light color

Important : Select 'mirror or reverse' print settings before printing to the transfer paper

Cut around the printed images leaving a 5mm spacing. Place the printed images print down onto the white cotton.

Transfer the print to your white cotton by iron. Select 'high temperature' but not steam settings. Iron the back of the transfer evenly and don't forget the corners.

Wait 20 seconds. Then slowly peel off the backing paper. If the paper does not peel easily more heat is required
